

Lesson Activity

Ok, you have money from working and you know what you want. What's next?

Get ready to BUDGET!

We are going to use 4 envelopes and you are going to decide how much of your hard earned money to put in each one.

The envelopes are:

Saving - this is the money that you set aside to save for your goals. Save for the most important goal first!

Spending - this is the money that you allow yourself to spend on everyday things.

Giving - this is the money that you give to charity and those that don't have as much as you.

Investing - this is the money that you invest so that it makes more money for you over time.

Directions for how to make your money envelopes:

Each of the next 4 pages can be made into a money envelope.

Each page makes one envelope!

Cut out along the outside border.

Fold on the dotted lines, here's how:

1. Hold the paper with the printed side facing you.
2. Fold the bottom first toward the center and away from you so you can still see the printed side.
3. Fold in the two side flaps and tape/glue them in place.
4. Fold down the top to create an envelope.

Decorate the envelopes with any craft supplies you have.

(Markers, Glitter, Stickers, or anything else that makes you happy!)
